Future Vision for HTLS: Last month I began sharing my vision for our school and mentioned the goal of being a ministry that is Christ-centered, academically strong, and respectfully operated. This week let me add the following: A ministry with a full preschool and a full single-graded day school that offers two kindergarten classes and extends through eighth grade. Our student population should reflect the cultural diversity unique to our community. Future enrollments will include established waiting lists for each class. And our students will continue to be actively engaged in acts of charity and service in the Bowling Green community and beyond. Stay tuned in the coming weeks as I continue to share my vision for HTLS. I have shared this vision with the staff and they have given me good input of what needs to be included. It will be shared with our School Commission on Nov. 10 and they will be asked to give input as well. I would love to sit down and share this vision with any of you and get your ideas as well.
Moving forward together,
Bill Hiskey, DSM
